DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jansen (U.S. 5,890,610). Jansen teaches a fast fit assembly having a collar at 30 in figures 2 and 3. The collar has an array of elements at 35 which move radially outwardly and bias against the container at 20 to capture the neck flange at 24.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is cited for the collar and elements.
4. THIS ACTION IS NON-FINAL.
